Enabling him to explore his passions. Guiding his way to a successful career.

Academic Success

We are proud of the the OP achievements of our senior students. Our graduating boys continue to perform very well with every passing year.

At Moreton Bay Boys' College, each student is encouraged to achieve his best and also enjoy his schooling years. We have a holistic approach to education to develop the whole boy, which includes academic, sporting, cultural, service to the community, together with a pastoral care program particularly targeted at young men.

With our college motto *life adventurers, life achievers* we encourage our students to aim high but to also enjoy the journey along the way.

As an outlet for their energy the boys are encouraged to participate in a broad range of cultural and active pursuits. The introduction of Adventure Sports has shown enormous interest with the boys trying Windsurfing, Kayaking, Motocross and Mountain Biking along side the more traditional sports offered. The boys are also active in drama, debating, ensembles, band and join in theatre and musical productions with our sister school Moreton Bay College.

Of our Year 12 cohort, 96% of our students were OP eligible.

- 16.67% achieved an OP of 5 or above.
- 56.67% achieved an OP of 10 or above.
- 93.33% achieved an OP of 15 or above.

As an academically non-selective school, these results are a credit to the high quality of teaching and learning at Moreton Bay Boys' College.

QCS RESULTS

A total of approximately 48.3% of OP eligible students who sat the Core Skills Test received an A or B which was well about State average.

While the OP score is just one indicator of the rich and varied education that boys receive at Moreton Bay Boys' College, it is a key that unlocks doorways to the future.

Career Guidance Program

SENIOR EDUCATION AND TRAINING PLAN (SET PLAN)

To achieve high results, students need to maintain a balance between their academic pursuits and the many other activities which enrich their lives. We believe with this holistic approach to learning the boys are well prepared to make significant contributions in their future studies and fields of employment.

MBBC's Career Guidance Program equips students to plan appropriately for their post-school lives and this, combined with their academic results, ensures that our graduates are well-placed for the next phase of life's journey, whether that be to secure entry into their chosen field of education or enter a trade or vocational pathway.

At Moreton Bay Boys' College, our senior staff act as coaches and mentors guiding our students towards their desired careers by meeting with their families and discussing career pathways.

Some students chose to follow a traditional trade, and some study at TAFE whilst completing their final years of schooling, teachers accommodate these students with flexible learning.

Some pathways chosen by students in the past include pathways with industry providers to deliver:

- Cert **III** in Fitness
- Cert **III** in Public Safety (Aquatic Rescue)
- Cert **III** in Automotive Vocational Prep
- Cert **II** Telecommunications
- Cert **III** in Media (Film & TV)
- Cert **II** in Retail
- Cert **II** in Electrotechnology
- Cert **II** in Business
- Cert **I** in Construction
- Carpentry Apprenticeship

“MBBC is proud of the academic achievement of its students but this is only one aspect of the outcomes they take from their time with us. The commitment to service shown by our students, their awareness of the broader global community in which they live, and their “can do” attitude prepare them well for life and opens up pathways beyond the College.”

*Mr James Sloman
Executive Principal*

Destinations of the 2015 Graduates

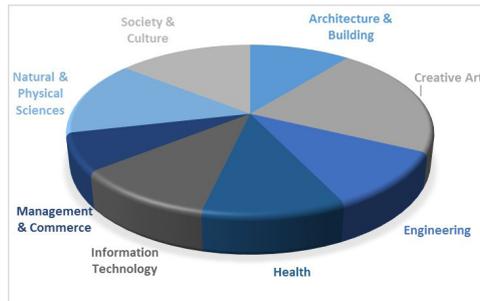

An impressive 100% of the Moreton Bay Boys' College Year 12 Class of 2015 who applied for a tertiary course were made an offer in the first round.

Of note is the variety of career pathways our graduates have chosen. The range is diverse and reflects the boys' individuality. These young men have the world at their feet and through their application and hard work have established the skills, attitudes and values that will stand them in good stead throughout their lives.

While congratulating the graduates on their achievement, the College also acknowledges the teachers who give so willingly of their knowledge, expertise and out of hours time to supporting the academic and co-curricular pursuits of the students, as well as the commitment and support of the boys' families who enter into a partnership with the College while their sons are with us.

The achievements and destinations of our Seniors of 2015 remind us that outstanding academic development can go hand in hand with all-round growth and development. This broad and balanced education is what best equips our graduates to make the most of the opportunities that lie ahead of them.
