

Moreton Bay Boys' College

Life Adventurers. Life Achievers.

Dear Parents and Guardians,

Co Curricular Art Project Group

..... has expressed an interest in joining the MBBC Art Project Group for this term.

The goal behind the group is to promote Art in the broader context at MBBC, to give boys an opportunity to extend their creative ideas and skills, and be guided and supported in having some fresh and exciting art works installed on campus.

Projects to date have focused on IB initiatives, themes that relate to college leadership and sustainability, and boys' oriented interests.

The group operates after school on Tuesdays from 3.00pm – 4.30pm starting in Term 1.

The group is open to boys in Years 4-12. Students are involved in the planning, developing, creating and installing (where appropriate) stages of each project and as such take significant ownership of the process.

Students will work in a team situation, with a limit of 10 per term. Minimum requirements are enthusiasm and a commitment for the term, so as to facilitate planning and installation of each project.

The MBBC Art team will co-ordinate the conceptual aspects of each project, with Mrs Beighton facilitating the weekly group and Mrs Furlong (Art teacher aide) assisting.

Parents are invited to come along to view work in progress, and taking the option of lending physical and creative support is always welcome!

There is no cost involved to the student, with an emphasis on sourcing recyclable, sustainable or cost effective materials and operating processes where possible.

Although the group will run in a less structured environment, normal expectations for classroom behaviour still apply. In the event that this doesn't occur, the student in question will 'sit out' the session and leave at the regular time, so as not to inconvenience parents, but may need to consider his level of commitment to the group.

All students are encouraged to come with some 'energy' food/afternoon tea to help sustain them!

Please feel free to email if you have any queries.
