MBBC Class Representative

“Class Representatives contribute towards the building of a strong school community”

Role of Class Representative-

The Class Representative is a support group of parents from each year level working together with the Parent and Friends Association on various fundraising and school issues, to achieve the best outcome for students, teachers and parents alike. They represent a vital link between school and parents and assist with the communication of events associated with the school and the P&F.

Class Representatives have certain duties:

- Compiling a class contact list
- Planning at least one class social event per term
- Supporting the work of the P&F Committee
- Participating in events which support the College
- Encouraging parents to participate in both school and social events
- Supporting the class teacher and extending parent participation

Class Representatives also play a major role in networking with parents to assist in College activities, such as:

- Chocolate drive
- Trivia night
- Grandparents Day/Open Day
- Entertainment Books
- Fitness a-thon
- Market day
- Carnival day

Parent & Friends Association:

Every parent is welcome attend the regular committee meetings held by the P&F; no membership required!

The P&F meetings are a friendly, relaxed and casual environment in which parents can be kept updated on College business and activities. Reports are given by the Principal, treasurer, committee and sub committees on various events. Open discussion allows communication between parents and the P&F on topics relating to College business in a personal and relaxed atmosphere. It is recommended that each Class Representative attend the P&F meetings.

Being a Class Representative enables you to meet more parents and friends within the College community. You will also become more involved in your son’s College and be helping develop the school community.

Thank you very much for your support and valuable time, it is greatly appreciated.

With thanks

Suzi Fisher

P&F President
