LEGACY WAY

Changed car park conditions

BGS CAR PARK

In early June, site set up commenced in a section of the Brisbane Grammar School (BGS) playing fields on the northern side of the Inner City Bypass (ICB), Kelvin Grove.

Installation of student car park

The new BGS temporary student car park is now open south of the School’s tennis courts. Directional signage will be in place for drivers.

Please be aware that the speed limit in place is 10km/h and this will be enforced by traffic control officers.

The temporary car park is expected to be operational for the duration of the project, finishing late 2014.

We thank you for your cooperation during this time.

Shared Access

During construction of Legacy Way, access off Victoria Park Road will be shared between Brisbane Grammar School and Transcity.

The access will be used for the delivery of materials and machinery including heavy vehicles such as excavators and trucks

Transcity is committed to ensuring safe delivery of the Project and we ask that you obey the road signs and speed limit in place as well as the direction of traffic control officers.

Construction hours

The majority of surface works will take place from 6.30am to 6.30pm, Monday to Saturday. Some activities may be required outside of normal hours to minimize traffic impacts or for safety reasons. If any out-of-hours work is required, Transcity will notify residents in the vicinity of the worksite in advance of these activities.

Our project

Legacy Way is a road tunnel that will connect the Western Freeway at Toowong with the Inner City Bypass (ICB) at Kelvin Grove. The project will comprise twin two-lane tunnels, approximately 4.6km in length, which will run between tunnel portals located in Toowong and Kelvin Grove.
