Dry ice is so cold it can actually burn your skin, so you have to wear protective gloves and goggles at all times –  
**YEAR 11’S WILLIAM MATTerson**

**CHILDREN’S ACTIVITIES**

The Wynnum Library is offering several activities for children. On Wednesday there’s book reading and rhymes from 10.30am-11am for babies aged up to one year; then ‘Story Time’ on Fridays, 10:10-30am.

**SERVICEmen MEET**

The National Servicemen’s Association of Australia is inviting new members to join for lunch and socialising. They meet every third Tuesday of each month at the Wynnum RSL club, 10am.

**STUDENTS from Moreton Bay Boys’ College donned lab coats and safety goggles to conduct crazy experiments with their friends and family at the school’s science night.**

**Boys from Prep to Year 12 channelled their inner Einstein during National Science Week with dry ice bubbles, paper gyrocopters, Paddle Pop stick bridges, balloon rockets and erupting volcanoes.**

**Year 11 student William Matterson said his favourite experiment was blowing detergent bubbles into a fish tank full of dry ice.**

**‘Dry ice is so cold it can actually burn your skin, so you have to wear protective gloves and goggles at all time,’** he said.

**‘The detergent bubbles were suspended above the carbon dioxide gas produced by the dry ice, just like a hovercraft. It was really cool.’**

**Acting Head of Moreton Bay College Diana Patchett said this year’s event attracted a record turnout.**

**COOL SCIENCE: Michael Wong gets creative with fun experiments at Moreton Bay Boys’ College.**
