YEAR 4 BYOD PROGRAM

To ensure compatibility, performance and reliability, MBBC have made the following recommendation for the iPads in the primary school:

The minimum requirements of the iPad required are:

- It must be a **full sized iPad** (iPad 2, iPad Air or iPad Air 2) i.e. it must not be an iPad mini.
- **16GB** model, if purchasing a new iPad for 2015, we recommend the **32GB** model.
- We strongly recommend the **WiFi only** model to reduce cost to parents and to ensure Internet traffic at the College is filtered.

Families will make their own decisions about where and how to purchase iPads.
